

To Whom It May Concern:

I was recently notified that an LPFM station may soon replace the K-LOVE Radio frequencies (99.1, 99.3, 99.5) in my area (Sacramento, Davis, Vacaville). K-LOVE Radio is a nationwide, nonprofit, listener-supported radio network that has been a major positive influence in my life for the last dozen years. With so much radio programming that isn't family-friendly, KLOVE's hundreds of stations offer positive music and words of encouragement to its millions of listeners. More than just a radio station, KLOVE is active in communities around the country, supporting local events and sponsoring programs that help people. KLOVE is a blessing, and I can't stand the thought of losing it to an LPFM. I hope you will take my comments into consideration. KLOVE is very important to me, and to millions of others around the nation. KLOVE is more than a radio station; it's like a member of the family. Thank you.

Sincerely,

Matthew Johnson

Davis, CA
